Timberline Advancement Committee

The Timberline Advance Committee has the primary responsibility to assist in the advancement of Scouts. This begins with Tiger Cubs and ends with the Eagle Scout Board of Review. It is important for the Scouting Program that the Committee recognizes and implements the advancement requirements that are our responsibility. In addition it is our responsibility to recognize Adult Scouters that excell in promoting the Scouting program and assure that they receive the recognition for the service they have performed. We need to help Troops by training them on how to conduct Boards of Review and how to select Adult Scouters for recognition. These are just some of the goals we are charged with. I will cover more during our meeting in August. Timberline has been the best in the Denver Area Council and we will continue to be when it comes to Advancement.

Gary Williams is the Committee Vice Chairman if you can't reach me please Call Gary for assistance.
